This bill proposes to increase the pension to \$100 per month, which is the amount received by the widows of some other officers of the army and navy of corresponding rank.

"MY MARYLAND"

was presented last night by the Huntley-Jackson Company to a fair sized audience. The scene represents a private in the Federal army, who was noted for his bravery at the battle of Gettysburg, but who was charged with the murder of his wife just before the battle, and was sentenced to prison for the crime and served twelve years before the guilty man was found out. Mr. J. H. Huntley represented the private and took his part admirably. Col. Wm. Lee Gordon made a most excellent general in the army. Larry O'Neil, a sergeant, was well sustained by Mr. Phil Maher. Maryland, the little child, was taken by little Eva, who took her part in a charming manner.

The whole was well staged. The piece did not fail to elicit the attention of the audience, who followed it from the rise to the fall of the curtain. The specialties were all good.

This afternoon "The Tornado," which drew so largely on Tuesday night, will be repeated at the matinee, and will no doubt be as largely attended as it was on the previous occasion.

At night "The World," which is noted for its gorgeous scenery, will be presented. It is worth a visit to see it.

BULLOCK WILL BE
CARRIED BACK.

New Jersey Officers Recognize Him and Pay Reward for Capture.

BULLOCK GLAD TO SEE THEM.

The Doctors Think That the Prisoner Can be Carried Back to New Jersey Without Injury, Although His Condition is Critical. The Story of Bullock's Crime and Frequent Trials.

Sheriff O. E. Davis and Constable Charles E. Strong, of Monmouth county, New Jersey, arrived in Portsmouth yesterday morning, and went at once to the County Jail to see William Bullock, the murderer of Chief of Police James Walsh, of Freehold. As they entered the corridor, where the wanted prisoner was lying on a mattress, they addressed him by name, and, looking up, Bullock recognized them. For a moment his face brightened, and there was something very like a tone of welcome in his voice as he spoke to them. In his loneliness and suffering the prisoner was evidently glad to see someone whom he knew. Bullock's next thought must have been, that one of these men standing over him would, in all likelihood, be his executioner, for with a sigh his head sank down on his arm and he spoke no more. No other questions were put to him, the identification being complete.

After consulting with Dr. Southgate Leigh as to removing the prisoner in his present condition, Sheriff Davis decided to take Bullock back to New Jersey at once, and sent Constable Strong to Richmond with the requisition papers to obtain the signature of the Governor, Dr. Leigh, who was called in consultation Thursday by the jail physician, Dr. Truitt, and the latter gentleman also, expressed the opinion that Bullock's chances of recovery would not be lessened by the journey, but that it was absolutely necessary that he have hospital treatment. If the requisition papers get back in time he will be taken away today.

Messrs. Garrett and Myers, the North Carolinians who captured Bullock were yesterday paid the \$500 reward offered by Sheriff Davis.

From the two Jersey officers it was learned that previous to the murder of Chief of Police Walsh, Bullock had borne a good character. November 13, of last year Walsh arrested him on a civil paper involving about \$13 for a load of millet. A few days previous he had been apprehended for some trivial offense and fined, and it is supposed that he treasured this up against the officer. He asked and obtained permission to go into the house and change his clothes, and when he returned shot Walsh with a revolver, which he had secured from his room. Four shots were fired into the officer's body, killing him almost instantly. Bullock escaped, but was captured that night, and in January following was put on trial for his life. This resulted in conviction, in spite of the prisoner's plea of self defense, and that he shot to prevent Walsh from shooting him. He was sentenced to hang in March.

A few days after the trial, a rusty pistol was found in the yard where the killing had taken place, and friends of the killing claimed to see in this strong confirmation of the prisoner's statement, that Walsh had a pistol and was about to use it. The weapon found was a cheap and practically worthless one, not such as a police officer might be supposed to carry, and how it came to be in the yard was never explained, except by the supposition that it had been placed there with a view of strengthening the plea of self defense. Filmy as was this scheme, it obtained Bullock a new trial, and the jury failed to agree on a verdict. A third time Bullock was placed on trial for his life, and was a second time convicted, but for some error in permitting inadmissible testimony the verdict was set aside and a new trial ordered.

It was while awaiting a fourth trial, which would have been held in October, that Bullock escaped from the Monmouth County Jail on September 6th, by digging through the concrete floor of his cell and tunneling the foundation of the jail.

"IS SIN INSANITY?"

Rawlings will be the speaker, and "Memory" will be his subject. These meetings will all be held in the lecture room of the First Presbyterian church. The service of song will begin at 4 o'clock. All men are cordially invited.

DID NOT CURE.

But Greatly Helped by Change of Food. A lady in Harrisburg, O., is frank enough to say that while she has been helped, she was not entirely cured in the change of food and taking up Grape-Nuts food. She says she began eating rich and highly seasoned food when she was young and followed it until she set up a bad stomach trouble, with severe attacks of nervous sick headache.

Finally rheumatism of the joints set in, and now some of her joints are dislocated by the heavy deposits forming about them and pushing them out of place, so that she is almost helpless. Her nervous system was wrecked and the optic nerve affected so that she could not read without bringing on nervous prostration and insomnia that would last two or three nights.

"Last fall I heard of, and commenced the use of Grape-Nuts as a food. It has since been both food and medicine to me. For I have taken very little medicine since I began to use it. After 10 months I find a great improvement in my brain and nerve power, no longer troubled with sleeplessness, I suffer very much less with my rheumatism, and can read several hours a day, one day after the other and sleep well all night.

"I am by no means entirely cured of rheumatism, but I have been made so much better by the use of Grape-Nuts food that I am sincerely thankful for it." This name will be furnished by the Postum Cereal Co., Ltd., Battle Creek, Mich.

dially invited to hear these practical lectures by talented speakers.
